

## PRAGYAN SAHOO

Email: [pragyansahoo95@gmail.com](mailto:pragyansahoo95@gmail.com)

Mobile: +91 7751881470

### Objective:

Seeking an environment to utilize, share and enrich my skills and experience in an organization that offers professional growth while being resourceful, innovative, and flexible.

### Technical Summary:

- Having **2.6+ years** of experience in all aspects of Design and Development on **JEE, Spring, Hibernate** and **Web-services** based system and have developed Enterprise Level Application.
- Practical exposé in presentation tier technologies framework like **Spring MVC**.
- Experience in **ORM** based framework like **Hibernate** and **JPA**.
- Hands on experience in **Spring Boot**.
- Hands on experience in **Microservices**.
- Experience in Microservices Eureka Server, Config Server, Feign Client, Hystrix Clients.
- Hands on experience in **Spring DATA**.
- Hands-on Knowledge **JPA** Annotation.
- Hands on experience in working with **Restful api** (JAX-RS).
- Having experience in Spring Boot Security.
- Hands on experience in Spring Boot Batch.
- Hands on experience in Redis cache.
- Having very good knowledge in **Data Structure and Algorithm**.
- Having good knowledge in **AWS**.
- Having very good knowledge in **Design Patterns** such as **Strategy Design Pattern, Factory Design Pattern** and **Singleton Design Pattern, Builder Design Pattern**.
- Having Good knowledge of OOP Concepts, Collections, Exception Handling and Multithreading.
- Effectively communicate with all team members and with the management team.
- Used Agile Scrum Methodologies to develop the project.
- Possess good interpersonal skills that have been put to good use in coordinating with Project teams.
- Open to new learning with the zest to work towards goal achievement.
- Demonstrate good ability to understand Business needs and deliver required results.
- Self-motivated, curious and a strong sense of ownership.

### Work Experience:

Duration	Designation	Organization
August 2021 to till	Software Engineer	IBS Software , Thiruvananthapuram

### Educational Qualification:

**Master of Computer Applications (MCA)** from Biju Pattnayak University (Raulkela) with 7.4 cgpa marks in the year of 2019.

### ACHIEVEMENTS

Got an appreciation from Team Lead and Manager regarding my work.

### Technical Skills:

Programming Language	Java
Java Technologies	JDBC, Servlet, JSP
Frameworks	Spring, Spring Boot, Spring MVC, Hibernate, Microservice, Kafka
Web Services Tools	Swagger.
Distributed Technologies	JAX-RS.
Server Technologies	Tomcat 9.
Database	Oracle, MySQL, Mongo
IDE	Eclipse, STS.
Source Control	GIT HUB
Testing Tools	Junit, POSTMAN
Build Tools/ Project Management Tools	Maven, Gradle
Log Tools	Log4j
Design Patterns	Singleton, Factory, Builder, Factory Method, Abstract Factory Design Pattern.
Web Technologies	HTML, CSS

## Project:

### Project :1

Title : Airline

Client : SA Airlink

Team Size : 07

Language : Java

Database : My SQL

Environment : Jdk-11, Spring Boot-2.x, Microservices, Hibernate, Eclipse 19-9, MySql, Javascript.

**Description :** Airlink is an airline based in [Johannesburg, South Africa](#). Its main business is to provide services between smaller, under-served towns and larger hub airports. It has since expanded to offer flights on larger, mainline routes. The airline has an ever-expanding network of over 60 routes across 50+ destinations

### Roles and Responsibilities :

Requirement analysis and solution design.

Involved in deployment, implementation, preparing unit test cases, review the code and configuration.

Responsible for changes according to client requirements.

Understand framework implementations to utilize them in the products to be developed.

### Project : 2

Title : RCG

Client : RCG

Team Size : 16

Language : Java

Database : Oracle

Environment : Java, Spring Boot, Microservice, Sprout, Apache camel, cxf and Kafka.

**Description :** The Royal Caribbean Group (RCG), comprising brands Royal Caribbean, Silversea, and Celebrity, is a prestigious client of iTravel Cruise. iTravel Cruise will enable RCG to evolve from selling a cruise cabin to becoming a “total vacation provider” that can deliver personalized guest services at every step of the trip. The product offers improved services that contribute to the entire vacation experience, such as booking flights, hotels, and transfers, as well as providing guests with personalized offers, credits, and loyalty rewards throughout the trip using an integrated guest wallet.

### Roles and Responsibilities :

Write high-quality, maintainable, and efficient code.

Document design decisions, APIs, and other relevant information for the development team.

Conduct code reviews to ensure code quality and adherence to coding standards.

Place: Bangalore
